The Style You Like for The Home You Love

Quality from Door to Door

Traditional

Residential Garage Doors

When arriving home, **Laforge** wants you to be greeted by a door that is not only safe and strong, a door that operates as it should. Why settle for anything less? We simply call it quality of life.

At **Laforge Doors Ltd.**, we are committed to giving you peace of mind.

-  **1** Polyurethane injected (CFC free) insulation ensures the panel's strength and provides the Supreme, Deluxe and Standard packages with an R-16 thermal value, and the Advantage with an R-12 thermal value.
-  **2** Wood end pieces ensure solidity and eliminate conduction of cold.
-  **3** Bottom rail with an EPDM U-shaped flexible rubber provides a contoured seal between the door and the floor for maximum protection. The aluminum bottom rail is supplied with the Supreme package. The PVC bottom rail is supplied with the Deluxe, Standard and Advantage packages, however you can upgrade to the aluminum bottom.
-  **4** Designed and manufactured for harsh weather, our 4 point seal system creates a continuous barrier for each panel section.
-  **5** Available in 6 different colors, the PVC side seals with double lip construction prevent air, snow and dust infiltration. Concealed fastener system for added beauty.
